

I would like to express my concern that my favorite radio station may be in jeopardy. That station is K-LOVE, heard on 96.9 FM in my area. K-LOVE provides a positive, uplifting element to each and every day of my work week as well as weekends. It also my childrens favorite and only station that they listen to. If K-LOVE were eliminated from my community by an LPFM broadcaster, I would see that as a tragedy. Nearly everyone that I work with listens to K-LOVE 96.9 FM or K-LOVE 104.3 FM & 102.3 FM in Cincinnati, OH. K-LOVE provides a much needed choice in the radio station selections of the Dayton, OH and Cincinnati, OH areas. I hope that the FCC will continue to provide the standard FM stations across the United States
